

Mid module feedback

Number of non-contact hours

*Class site is good.*

*Working at my own pace is good*

*Like the class meetings.*

*“Weirdly much more approachable than first year. (Very good thing).”*

*"Weirdly much more approachable than first year. (Very good thing)."*

*"Spending the first 20 minutes trying to convince everyone that you're not terrifying is slightly counter-productive"*

*“Please bring your dog again.”*

*“4-5 lecture slot is a pain!”*

*“Not sure if problem sheet questions are representative of exam style questions?”*

*“Printing mishaps (sorry)”*

*“It would be nice if sometime the professor told us how to write the code”*

*“Code provided in alternative languages e.g. R would be nice.”*

*“More explanation in the sheet solutions”*

*“Coursework page limit! There is a lot that I would to have been able to include in the report! (At least 3 pages please)”*

*“Lectures can be inconsistent in pace and difficulty.”*

*"I don't know if you expect this class to be a reversed teaching style or not. Are you expecting us to pre-read for lectures? It seems like you like us to 'discover' stuff in class."*

*“‘Class meeting’ is a funny term for lecture.”*

*The room is not appropriate.*

*“Perhaps go through big topics a little more slowly (eg how you went through Best Response Polytopes over two lectures).”*

*“Sometimes I feel like you get angry when we  
don’t understand something”*

*“More guidance on coursework!”*

*“Impact of not starting on time but waiting for people to be quiet impacts everyone, not just the people talking.”*

*“Not enough cake (ie not every lecture)”*

*“I like the beard”*
